## *Advances In Mathematical Geology Symposium In Paris*

At the XXVI International Geological Congress in Paris, France (7-17 July, 1980), Symposium S.12.2.4. in the Mathematical Geology Section will be presented by IAMG under the title, "Advances in Mathematical Geology." All members of IAMG are encouraged to attend this symposium which should provide a window through which exciting research at the forefront of mathematical geology is seen by the geological world. While papers on methodology and applications will be included, it is planned to highlight papers demonstrating definite conclusions which would not have been possible without mathematical-geology techniques. It is planned to publish the actual papers as a set as close to Congress time as possible. A few more papers can still be accommodated in the program, so members are encouraged to send titles and abstracts to me before the end of 1978, indicating the probability of personally attending and reading the paper, if it is selected for this symposium.

E.H.T. Whitten, Symposium Co-Chairman  
Department of Geological Sciences  
Northwestern University  
Evanston, Illinois 60201  
U.S.A.

### FORTHCOMING EVENTS

Applied Statistics Series (Office of Professional Education, University Associates, Princeton, New Jersey):

- Nov. 27-Dec. 1, 1978 - Prediction Analysis of Cross Classifications
- Jan. 22-26, 1979 - Game Theoretic Analysis of Decision Making
- Feb. 26-Mar. 2, 1979 - Modern Techniques in Time Series Forecasting and Dynamic Model Building

BMDP-77 Winter Tutorials (Health Sciences Computing Facility, University of California, Los Angeles, California):

- Dec. 4-5, 1978 - Washington, D.C.
- Dec. 18-19, 1978 - Los Angeles, CA
- Jan. 2-3, 1979 - Los Angeles, CA

16th Tutorial of Clinical Cytology - 1979 Intl. Conference on Pattern Recognition of Cell Images

(Center for Continuing Education, University of Chicago, Chicago, Illinois):

- May 12-19, 1979 - 16th Tutorial...
- May 21-23, 1979 - 1979 Intl. Conference...  
(Submit registrations and abstracts as soon as possible to: 1979 ICPRCI, International Academy of Cytology, 5841 South Maryland Avenue, HM #449, Chicago, IL 60637 USA)

## Canadian Officers

The Canadian Regional Organization of the IAMG is the Geomathematics and Computer Applications Division of the Canadian Society of Petroleum Geologists. Recently elected officers of the Regional Organization include:

- Chairwoman: Sherry Carroll - Independent Geologist
- Vice-Chairman: Hassan Sherazi - Petro Canada, Ltd.
- Secretary: David Flint - Amoco Canada Ltd.
- Program Director: Eric Dahlberg - Geological Survey of Canada

Meetings of the Canadian Regional Organization are held monthly in Calgary. For further information, contact:

Dr. Eric Dahlberg  
Institute of Sedimentary and  
Petroleum Geology  
3303-33rd St., N.W.  
Calgary, Alberta T2L 2A7  
CANADA.

\*Members outside U.S.--Want to receive IAMG NEWS LETTER sooner? Add \$2.50 for Airmail postage. (Airmail shipment of the journals can be arranged upon special request, but the postal charges are very high.)

The IAMG, which strives to promote the development and application of quantitative methods in the Earth sciences, presently includes over 450 members. It is an affiliate of the International Geological Union and the International Statistical Institute. IAMG Regional Organizations are also affiliated with numerous national societies, including the Geological Society of London, the Geological Society of America, and the Canadian Society of Petroleum Geologists.

# Position Available

## KANSAS GEOLOGICAL SURVEY

Application deadline December 1, 1978

Positions available approximately December 15, 1978

The Kansas Geological Survey is a research division of the University of Kansas, responsible for basic studies in the earth sciences and their application to the state of Kansas. Career positions with an initial-year appointment leading toward permanent status. Successful candidates with a PhD degree or equivalent will be appointed at a faculty-equivalent rank. Further educational pursuits encouraged.

### Send résumé and application to

Lila M. Watkins  
Kansas Geological Survey  
The University of Kansas  
1930 Avenue 'A,' Campus West  
Lawrence, Kansas, 66044, U.S.A.  
Telephone: 913/864-3965

### (1) Research associate

Geologic Research Section. Emphasizes development of quantitative methodologies in geology and related disciplines. Current emphasis on probabilistic resource appraisal, especially of oil and gas; automated cartography and petrophysical log interpretation; and quantitative sedimentary petrology. Develop and conduct independent research programs of a quantitative nature in an area of the earth sciences having application within the state of Kansas; contribute to the planning and direction of section activities; supervise the activities of student research assistants; and contribute to the profession through scholarly reports, presentations, and professional service. PhD, DSc, DE or an equivalent degree in an area of the earth sciences is required. Highly experienced candidates without a terminal degree may be considered for a temporary appointment provided they make diligent progress toward the PhD or equivalent degree. Such an appointment is subject to annual review. The successful candidate must have a strong background in mathematics, computer applications, and quantitative analysis. A record of publications and experience in an industrial research environment and/or in resource appraisal is highly desirable. Salary range \$18,000-\$24,000.

The University of Kansas is an equal-opportunity/affirmative-action employer. Applications are sought from all qualified people regardless of race, religion, color, sex, disability, veteran status, national origin, age, or ancestry.

## Rapidly Changing Journal Title In Rapidly Advancing Field

Amsterdam, 29 March 1977...

"The JOURNAL OF COMPUTER GRAPHICS AND SPATIAL ANALYSIS would publish papers by and for the interdisciplinary community interested in the scientific results on theory, experimentation, systems design and applications in computer graphics technology and the analytical results derived from..."

Amsterdam, 25 January 1978...

"Further to our correspondence...the name of the journal will be: 'Journal of GEOPROCESSING' with [sic] the subtitle 'Geodata, Geosystems and Digital Mapping'..."

Amsterdam, 26 May 1978...

"...it has been decided to change the name of our newly founded Journal of Geoprocessing into 'GEOSYSTEMS' with subtitle 'Geodata, Geoprocessing and Digital Mapping'..."

Amsterdam, 19 October 1978...

"...we have decided to return to the name 'Geoprocessing'. However, we will now omit the words 'Journal of' and insert a hyphen between Geo and Processing....you can now consider 'Geo-Processing' as definite. The sub-title will become, Geo-Data, Geo-Systems and Digital Mapping."

Seriously, folks, Elsevier's new journal, edited by Tom Peucker (Dept. of Geography, Simon Fraser University, Burnaby, B.C., Canada V5A 1S6) and with a large and imposing Editorial Board, promises to be a valuable addition to the available literature. The journal will deal with camera-ready manuscripts submitted by the authors--research results will be available quickly and everyone saves time and money! The first issue is scheduled to appear in March 1979. Watch for it (we'll keep you updated on the title!).
